

South Carolina's Paper-Based Voting System

VOTE

1 Insert Your Blank Ballot

After signing in, a poll worker will provide you with a blank ballot card and direct you to a ballot-marking device. Insert your ballot card into the ballot-marking device as instructed with the corner cut at the top right. If necessary, a poll worker will select your ballot style before leaving you to vote in private.

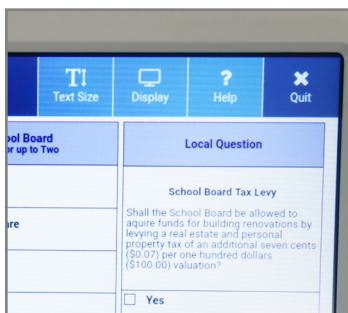

2 = Make Your Selections

Make your selections by touching the screen. Selections will be checked and highlighted.

To cast a write-in vote, touch **WRITE-IN**. A touch-screen keyboard will appear. Type the candidate's name and touch **ACCEPT** to continue voting.

To make the ballot larger, touch the **TEXT SIZE** icon. To change the screen brightness or switch to high contrast black and white text, touch the **DISPLAY** icon. Select **NEXT CONTEST** to move to the next contest or **PREVIOUS CONTEST** to return to a previous contest.

3 Review & Print Your Ballot

After completing the last page, touch **REVIEW SELECTIONS** to review your ballot. The review screen will notify you if you have not voted a contest or selected fewer candidates than allowed. To change a selection, touch the selection to return to that contest. When satisfied with your selections, touch **RETURN TO SUMMARY**.

To print your ballot, press the **PRINT BALLOT** icon found at the bottom of the screen. Your printed ballot card will be returned to you from the slot on the front of the ballot-marking device.

4 Review & Cast Your Ballot

Review each selection on your ballot card. If you need to make changes, contact a poll manager for a replacement. When you are ready to cast your ballot, take your ballot card to the scanner. To ensure ballot secrecy, insert your ballot face down on the green arrow.

The voting process is now complete.

South Carolina's Paper-Based Voting System

MY V*ICE
MY V*TE

**Easy to use touch screen voting
with a secure paper record.**

- ⦿ Creates a paper record of every ballot cast. Paper ballots are used to verify election results adding an additional layer of security to South Carolina elections.
- ⦿ Prevents overvotes (selecting more candidates than allowed).
- ⦿ Warns voters about undervotes (voter missed an office or voted for fewer candidates than allowed).
- ⦿ Accessible for all voters. Every voter can vote independently using the same equipment. Every ballot-marking device features an audio ballot and headphones, a Braille-embossed controller, and an input for a sip-and-puff switch and other assistive switches.
- ⦿ Easy to use and familiar. Voters have a long history of voting on touch screens.
- ⦿ Prevents unintended or improper marks. Ballot-marking devices prevent hand-marking errors that can cause votes not to count.

For more information contact your county voter registration and elections office or visit: scVOTES.gov.
